Cassette to CD

STEP 1
Press the **POWER** button

STEP 2
Press the **PHONO/TAPE/AUX** button to cycle through modes
- We want to select TAPE

STEP 3
Load your **CD-R**
- Press the Open/Close Button

STEP 4
Make sure **NO TOC** and **CD-R** show up on the display.

STEP 5
Set the **TAPE** switch to fit your cassette tape.
- If you have a plastic cassette, chose NORMAL.
- If you have a metal or chrome tape, chose HIGH.

STEP 6
Load your cassette in the cassette holder.

STEP 7
Find the place on the cassette where you want to start recording.
- Press the **II** button on the cassette player.

Both the ▶ and **II** buttons should be pressed down.

STEP 8
Press the **RECORD** Button
- This starts the record pause mode.
- The red indicator on the **RECORD** button should blink.
- On the display, the **REC** indicator should blink and the **II** indicator should light up.

STEP 9
Press the **Play/Pause** (▶ / II) button on the main control panel to start recording
- This starts the recording process.
- **Unpause** the cassette by pressing the **II** button
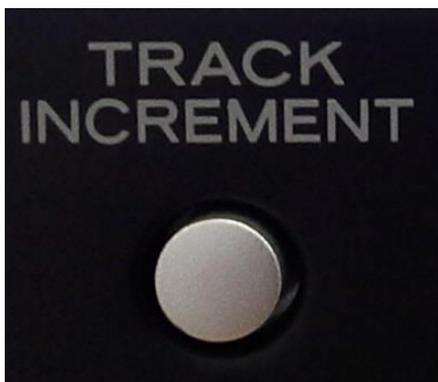

STEP 10
If you would like to have **separate tracks** on the CD, press **TRACK INCREMENT** at the end of each song.

STEP 11

Recording will **automatically stop** at the end of each side.

- You can also stop recording by pressing the **stop** (■) button.

STEP 12

When you are done recording on your CD, you need to finalize it so it can be played on other devices.

- Switch from TAPE to **CD**.
- Press **Finalize** once.
- Then Press **Enter**.

TROUBLESHOOTING

RECORDING LEVEL

The VOLUME knob has no effect on volume *of the recording*.

- To adjust the level of the **recording volume**, adjust the **REC LEVEL** knob.
- Make sure that the volume display **does not** exceed "**OVER**."

ERASING CONTENT

You **cannot erase** tracks from **CD-Rs**. You can only add to unfinalized CD-Rs.

- You **can** erase tracks from **CD-RWs**. If you would like help with this, ask staff for help.
